

## Free Flash Video Chat Released

Wednesday, 23 January 2008

The much awaited flash video chat server has finally been released and marks the first step in our development goals for 2008. In the coming month the video chat will be further developed and incorporate a multi-player gaming environment with Five Card Draw being the first game to be released.

Flash video chat is currently available to all site visitors so if you have a video-cam or just like text-chat come check out the features.

Drop into any of the preconfigured public chat rooms, private chat with and user or create your own private video chatroom it's up to you.

The chat-room is currently powered by AVChat and allows users to engage in video / chat conversation with up to (3) additional users in live video at any given time.

Strip Poker Mens Club was launched just over 8 months ago and has undergone huge changes, including a complete site redesign and switch to CMS. With new games and photo-shoots continuing to be rolled-out on a regular basis.

We encourage all to come and see the changes and the become part of the strip poker community.
