

Live Strip Poker with Flex Based Gaming Platform

Thursday, 21 August 2008

Combining the latest in Adobe Flex technology, Strip Poker Mens Club today has released a unique Live Strip Poker game which is totally unique from any other strip poker game technology currently available.

As the game is Flex / Flash based it means that not only is the game browser independent but also doesn't require the visitor to download and install any software.

The game has been the result of 9 months of planning, development and testing with more interesting additional features in the pipeline for release in the coming month.

The Five Card Draw multi-player game is targeted to a very broad audience catering up to five players in each private room with live streaming video. If you are not quite up for a game of Strip Poker, that's OK as the game has been structured to cater for all types of players, whether you just want to play a few straight hands of Five Card Draw poker amongst family or friends or get intimate with your partner in your own private room, it's up to you.

As an added bonus Membership is FREE, chat, video chat and play strip poker for as long as you like for absolutely nothing and although players are required to register to commence playing, registration is a very simple and quick process, no credit cards required, no monthly memberships or trial periods, just a straight, plain and simple guarantee; the best game of Five Card Draw Poker you will ever experience online with absolutely no strings attached.

For those players not familiar with the game of Five Card Draw there is plenty of online help to get you started, in fact all players regardless of their experience are encouraged to read the how to get started guide so that can make the most of all the features that our multi-player five card draw live strip poker game offers.

See you at the tables!
